### WINEMAKING NOTES

After harvest at optimum ripeness the fruit is gently pressed, then cool fermented in stainless steel tanks. Post ferment, it is left for a short period on gross lees to develop texture and mouth-feel. A portion of Merlot is added to the final blend for vibrant colour and flavour. The wine is then blended and bottled while young and fresh. Prior to bottling the wine is chilled down and carbonated. It is this carbonation that provides the lively, refreshing bubbles.
